-----

Housed in a weather-resistant IP55 cabinet, it combines a 100kWh LiFePO4 battery pack with 50kW charge/discharge capability, supporting real-time monitoring and remote control via Ethernet, RS485, ...

With support for 200% PV oversizing and a maximum 40A DC input current, the Hybrid ESS Cabinet ensures high throughput for large-scale solar integration. Global MPP scanning maximizes energy ...

It is suitable for microgrid scenarios such as small-scale commercial and industrial energy storage, photovoltaic diesel storage, and photovoltaic storage and charging.

With a 50kW inverter and 100kWh LiFePO4 battery pack, this product integrates energy conversion, intelligent management, and reliable safety protection into one compact cabinet.

Housed in a single indoor cabinet, it combines a high-performance 50kW power conversion system with 100kWh of advanced LiFePO4 storage, ensuring safe, efficient, and reliable energy management.

This achieves an integrated "PV + Energy Storage" solution. The cabinet system adopts a modular design, allowing flexible configurations for photovoltaic, batteries, and loads, meeting various user ...

Integrated PV and storage system with super wide PV input voltage; Small footprint and IP54 protecting grade for outdoor installation. Safe & Reliable High-performance battery cell, meet IEC/UL/GB ...

SUNWAY Outdoor energy storage cabinet integrates energy storage battery, modular PCs, energy management monitoring system, power distribution system, environmental control system and fire ...

10-15 years warranty, no need to worry about after-sales issues. Professional R& D team to customize energy storage solutions for you. Compatible with most of the available Hybrid inverters. Affordable ...

## 100kWh photovoltaic integrated energy storage cabinet for tunnels

The outdoor cabinet is weatherproof, easy to install, and built for long-term performance. With remote monitoring, after-sales service, and extended warranty, SUNWAY ensures stable power supply and ...
