Equipped with function control software, it can control the main operation parameter settings on the remote PC machine, and realize the energy flow between the battery and the power grid in a timely and two-way way.

The price and quality are very competitive, and we have cooperated with well-known brands such as Jinko, JA, TRW, etc., and can provide large-brand solar energy series products.

The FlexiO series is a highly integrated battery energy storage system (BESS) designed to optimize performance and reduce costs for stationary commercial and industrial energy storage applications.

Off grid standby power supply: when the power supply of the power grid is interrupted, provide uninterrupted short-term power supply for important loads to reduce the economic losses caused by ...

With 500KW of power and a massive 2150kWh of storage, it ensures stable energy supply during peak usage or grid outages. Its all-in-one container design simplifies deployment, reduces installation time, and maximizes ...

You avoid grid congestion, increase your own consumption and create a stable, scalable energy system. From design to realisation and maintenance - we not only provide the business battery, but integrate them ...

Built for rapid deployment, our 500 kW capacity batteries are a fast way to increase your efficiency, on or off the grid. Packaged with everything you need - from fire protection to HVAC - they're an effective ...

Offers a versatile power solution adaptable to various industries, including construction, events, and remote operations. By integrating the 500 kWh Battery Container into your operations, you can ...

We provide professional Lithium Battery, Solar Energy Storage Systems, Containerized ESS, Solar Power System Homes, Commercial and Industrial use, Distributors also. Solar Projects installation Guidance

500kWh Off-Grid Solar Energy Storage Unit for European Field Operations

MEGATRONS 500kW Battery Energy Storage Solution is the ideal fit for commercial applications. Utilizing Tier 1 LFP battery cells, each commercial BESS is designed for a install friendly plug-and-play commissioning.
