KonkaEnergy Cabinets & Racks Collection - Engineered for secure and efficient energy storage, our battery cabinets and racks provide robust solutions for commercial and industrial applications.

Engineered for safety, efficiency, and seamless scalability, this C& I ESS is ideal for diverse energy storage needs across industrial parks, supermarkets, hotels, office buildings, data centers, and solar ...

The smart, safe, and cost-effective solution for peak-shaving, backup power, and sustainable energy optimization. Cut your electricity bills while ensuring reliable power supply for your facility.

Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor ...

One LiHub cabinet consists of inverter modules, battery modules, cloud EMS system, fire suppression system, and air-conditioning system. The LiHub is IP54 rated and can be installed both indoors and ...

With advanced BMS intelligence for precise State of Charge (SoC) and State of Health (SoH) tracking, these battery cabinets simplify installation, reduce maintenance, and optimize runtime.

Protect your facility and your team with Securall's purpose-built Battery Charging Cabinets--engineered for the safe storage and charging of lithium-ion, lead-acid, and other rechargeable batteries.

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Looking to deploy an enterprise-grade ESS cabinet for commercial facilities, factories, EV charging, microgrids, or industrial parks? Wenergy provides fully integrated, outdoor-rated ESS cabinets using ...

Battery energy storage cabinet for office buildings IP54

The liquid-cooled energy storage battery system has a capacity of 241kWh, and the battery system includes battery pack, liquid cooling, BMS and fire protection system.
