This project uses SERMATEC's self-developed EMS system, integrating PV power generation to achieve self-consumption of solar and energy storage.

Desislava Mateva, Project Manager at the Sofia-based Association for Production, Storage, and Trading of Electricity (APSTE), stated that the Bulgarian market's strength stems from solar power's ...

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, integrated with solar photovoltaic power generation, to provide ...

Bulgaria is taking bold steps toward a greener energy future, having recently wrapped up its most ambitious energy storage tender to date.

Bulgaria also commissioned one of the EU's largest standalone BESS facilities adjacent to a 107 MW solar park. Mateva said the commercial and industrial solar market shows steady ...

storage is hindering Bulgaria in the development of an energy storage market. Furthermore, Bulgaria's energy legislation and grid codes have been historically written with thermal plants in mind, ...

The commercial and industrial (C& I) segment continues to expand as higher electricity prices encourage companies to invest in self-consumption systems, often paired with batteries. ...

Three years ago, SCU deployed the country's first 40ft containerized energy storage system at a solar farm in Bulgaria, setting a precedent for large-scale industrial and commercial ...

Bulgaria installed over 1 GW of solar for the third consecutive year in 2025 and is forecast to add over 2 GW this year thanks to a large pipeline of utility-scale projects.

# Bulgaria s commercial and industrial energy storage solar

As a highly integrated, fast-responding, and stable solar and storage solution, this project provides a replicable model for Bulgaria and the broader European region.
