Why did the Dominican Republic start a solar park in 2022?

On 2022, DOMINION completed the commissioning of El Soco photovoltaic solar park in the municipality of Consuelo, Dominican Republic. The energy deficit and dependence on fossil fuels drove the Dominican Republic to step up its commitment to clean energy.

How many solar panels are used in Dominican Republic?

For the construction, which has had an investment of 93M USD, a total of 147,870 solar panels were used. The project helps Dominican Republic to reach its goal until 2025, the year in which they expect 25% of the electricity consumed by the country to come from renewable energies, and has generated more than 500 direct jobs in the region.

Why did the Dominican Republic build a photovoltaic plant?

The energy deficit and dependence on fossil fuels drove the Dominican Republic to step up its commitment to clean energy. DOMINION took on the task of building the photovoltaic plant in this Caribbean country, with an offer that included everything from the design and construction of the plant to its operation and subsequent maintenance.

The new regulation governing distributed generation in the Dominican Republic was recently published on 19 January 2026, marking a significant shift in how solar panels are installed ...

Dominican Republic Streamlines Solar Energy Installation with New Regulations The global push towards decarbonization and renewable energy is gaining momentum, and the Dominican ...

The Dominican Republic has launched a tender for up to 600 MW of solar and wind capacity, requiring projects to include at least four hours of battery storage to support stability in the ...

In 2021, the National Energy Commission signed a 30-year concession with Dominican public-private power firm EGE Haina to build and operate the solar facility, with the project ...

January 9, 2025 EGEPSC has launched a tender for a 40 MW solar plant to improve the efficiency of its Punta Catalina thermoelectric plant in the Dominican Republic. The project aims to ...

Dominican Civilian solar System

On 2022, DOMINION completed the commissioning of El Soco photovoltaic solar park in the municipality of Consuelo, Dominican Republic.

The Dominican Republic's solar energy transformation represents a pivotal shift in Caribbean power infrastructure, with installed capacity growing from 3MW in 2016 to over 400MW in ...

The Dominican Republic's national energy commission has approved a new 83.4-MW/101.6-MWp solar project with storage, as well as inaugurated a 58.48-MW/64.70-MWp solar ...

The solar park will generate 132,000 MWh per year and is expected to save more than 60,000 tons of CO2 emissions per year. The project helps the Dominican Republic meet their goal of generating ...

The Dominican Republic's National Energy Commission (CNE) recently approved a definitive concession for an 83.4-MW/101.6-MWp solar project with storage, while Vice President ...
