"We are excited to build our first solar+storage project in New Mexico and to support EPE as the project delivers long-term price stability, stimulates economic growth, and reduces emissions."

We specialize in providing the design, financing, installation, and operation of energy storage and solar solutions in order to help businesses and utilities reach their long term goals. We are at the forefront ...

Save money on your energy bills and reduce your carbon footprint with a solar battery from EDF. Our solar batteries are reliable, efficient, and backed by a comprehensive warranty.

We're committed to providing future generations with the means to power their lives in the most economic, environmental, and socially responsible ways possible. Why EDF power solutions?

Energy storage batteries are rechargeable lithium batteries that are used for storing energy created by solar panels. Through EDF you have the opportunity to purchase a battery ...

EDF Renewables North America has begun operations on a 375MW/600MWh solar-plus-storage project in California, US. The company announced last week (31st January) that the Desert ...

EDF Renewables North America has begun operations on a 375MW/600MWh solar-plus-storage project in California. The company announced last week (31st January) that the Desert ...

Explore EDF's battery storage initiatives, partnerships, and technological advancements driving a sustainable energy future. Learn about their projects in the UK, Europe and North America.

The battery is topped up using imported energy in night/off-peak hours and discharged during the peak. Excess energy not used for the home/ when the battery is full is exported.

View our projects across North America. The 131 MW solar and 50 MW storage Maverick 6 Solar+Storage

Edfsolar energy storage

Project located in California became operational in 2021.
