Does EBRD support Ukraine's energy security?

The European Bank for Reconstruction and Development (EBRD) is supporting Ukraine 's energy security by lending EUR22.3 million to private Ukrainian energy company Power One for the financing of new peaking generation capacity and battery energy storage systems (BESS).

How will Bess impact Ukraine's energy supply chain?

Meanwhile,integrating BESS will significantly enhance energy diversificationand allow for flexibility in the energy supply chain. Incorporating both technologies will help to stabilise Ukraine's grid during peak demand periods,reducing the frequency and duration of power outages and ensuring uninterrupted electricity supply.

Why are Ukraine's energy facilities being destroyed?

Ukraine's energy facilities have faced a campaign of destruction since the start of Russia's full-scale invasion,with the attacks intensifying in October 2025.

Why do we need a gas-fired peaker in Ukraine?

As Ukraine faces its fifth wartime winter,distributed flexible power generation and BESS are urgently needed to preserve the power system and ensure Ukrainians have electricity and heating during the coldest months of the year. Gas-fired peakers operate only during periods of high electricity demand to balance the grid and prevent blackouts.

In 2025 Ukraine deployed around 1.5 GW of new solar capacity driven by strong interest in co-located battery energy storage systems. BasenPower breaks down the key drivers, policy ...

The European Bank for Reconstruction and Development (EBRD) is supporting Ukraine 's energy security by lending EUR22.3 million to private Ukrainian energy company Power One for the ...

Large-scale storage financing: "There must be no uncovered risks"The pipeline for battery storage projects is expanding, but many still lack financing. Florian Hock and Marcus Starke ...

DTEK has secured UAH3bn (EUR67m) in funding from a consortium of Ukrainian banks to support the development of a major battery energy storage system (BESS), which is set to become one of the ...

Financing for the 10MWh Energy Storage Battery Cabinet Project in Ukraine

RTE international has carried out comprehensive feasibility studies for the installation of a battery storage system in Ukraine. This system is intended to manage frequency control reserves ...

The signing of the loan agreement comes after Oschadbank joined the EBRD's risk-sharing programme in February. Image: KNESS Energy company KNESS has secured a EUR9.6 million ...

DTEK, a leading Ukrainian energy company, has secured a \$72 million loan to build one of Eastern Europe's largest battery energy storage systems (BESS). The financing, provided by state ...

DTEK, Ukraine's biggest private energy company, has begun final commissioning of the country's largest battery energy storage project,, developed in partnership with Fluence Energy Inc., ...

DTEK said its total investment in the project amounted to 125 million euros (\$146.13 million). Six battery storage systems have been connected to the power grid in the capital Kyiv and Dnipropetrovsk ...

DTEK secures a \$72M loan to build one of Eastern Europe's largest battery storage facilities, boosting Ukraine's energy resilience and independence.
