Gambia Scam/West Africa Scam - Please watch out for this and don't make the same mistakes I did. You will be approached by a man aged 16-24. This will most likely be on Instagram ...

OverviewHistory of the bifacial solar cellCurrent bifacial solar cellsBifacial solar cell performance parametersA bifacial solar cell (BSC) is a photovoltaic solar cell that can produce electrical energy from both front and rear side. In contrast, monofacial solar cells produce electrical energy only when photons are incident on their front side. Bifacial solar cells and solar panels (devices that consist of multiple solar cells) can improve the electric energy output and modify the temporal power production profile compared with their monofa...

TIL: That one of the poorest countries on earth, The Gambia, is a hotbed for female sex tourism. Wealthy older European woman seeking out young African men is the country's main attraction.

A significant strategic project with strong substantial economic and social impacts, the recently inaugurated solar photovoltaic plant in Jambur is poised to supply electricity to ...

The configuration of the panels, as observed in Fig. 1, highlights the solar panel array installed to harness solar energy efficiently. The accompanying structure houses essential equipment ...

For anyone who has served in The Gambia or traveled to The Gambia during their PC service, what was your experience like? Any information about the...

Why do countries have "The" in front of their names like The Ukraine, The Gambia, The Maldives" etc.? Is it just a translation issue from whatever the country is called by the native people? Or is there ...

The Gambia is Africa's most fascinating nation, a tiny state that simply runs along the coast of a small river.

Gambia's bifacial solar panels generate electricity

Created by the British Commonwealth, it is one of the few English-speaking ...

Gambia's National Water and Electricity Company (NAWEC) is making significant strides in its ambitious solar expansion project. Central to this initiative is the installation of a large-scale ...

The surrounding African nations made an impressive show of unity in forming this coalition to resolve the constitutional crisis in Gambia. The UN signed a resolution supporting political ...

The Gambia became a channel (literally and figuratively) for black market trade. If Senegal could gain control over the river, it would be easier to enforce their trade policies. In the ...

Promising increased efficiency, bifacial solar panels can boost energy output--discover when their dual-sided design truly pays off and how to maximize benefits.

The Solar Power Project in The Gambia is planning to install 10.5 MW capacity across two regional grids, supplying 145,000 people with clean energy through grid-connected households and shops.

This flagship project concerns the implementation of a renewable energy (solar) production, transmission, and distribution programme in the Gambia. Its main objective is to improve electricity ...

No one ever talks about it, but in my opinion, Gambia has one of the weirdest / funniest shapes in the world. It literally just follows The Gambia River, eating a chunk out of Senegal. : ...
