The Public Utilities Regulatory Commission (PURC) of Grenada is inviting expressions of interest (EOIs) for a renewable energy project at the island nation's main international airport. The ...

That's Grenada today - a nation swapping diesel generators for smart energy storage while dancing to soca beats. With IMF projecting 3.9% GDP growth for 2025 [1], the "Island of Spice" is spicing up its ...

Grenada Electricity Services (Grenlec) is seeking consultants to support the development of a solar-plus-storage project at Maurice Bishop International Airport, featuring a 15.1 MW solar farm ...

The funds will be used to install a 10.6-megawatt battery energy storage system, upgrade Grenada's transmission infrastructure, and integrate the country's first utility-scale solar power plant--capable of ...

Grenada is building an energy storage power station PURC is seeking an IPP to build and operate either a 15.1MW standalone solar PV plant or a solar-plus-storage plant combining 15.1MW of solar PV and ...

Grenada's energy storage initiatives are shaping the future of sustainable power in the Caribbean. This article explores the strategic locations of these projects, their applications in renewable energy ...

As part of its climate adaptation efforts, Grenada can invest in building climate-resilient energy infrastructure, including burying power lines, developing microgrids, and enhancing storage capacities.

Discover how geothermal energy can transform the Caribbean's energy landscape with clean, reliable renewable power. Access project documentation, find answers to your questions, and stay updated ...

The project seeks to integrate three solar photovoltaic generating facilities totalling a 15.1MW capacity and a 10.6MW/21.2MWh Battery Energy Storage System (BESS), with the ...
