Our core team brings 15+ years in renewables and container manufacturing. From system design to factory testing, we size and deliver SolaraBox Mobile Solar Containers that meet site needs reliably ...

Our industry-grade modular freezer maintains an internal temperature of -18°C , making it ideal for last-mile delivery, remote communities, and food or medical storage. It can also be custom-built for ...

Plug-and-play solar power containers are designed to perform across a wide range of application environments. Their standardized structure and flexible configuration options make them suitable for ...

Advantages: Lower initial investment, ideal for areas with high electricity costs, grid power complements solar energy. Applications: Suitable for urban or grid-stable areas, especially for cold chain ...

Our off-grid refrigerated containers use solar energy to maintain ideal cooling conditions, ensuring freshness and reducing waste. Equipped with high-performance compressors and evaporators, our ...

We provide highly stable electrical connections and fully automated turnkey projects for energy storage system integration, helping customers achieve safer, more efficient, and smarter energy storage ...

Our solar containers reduce installation time from months to just days, minimizing labor costs and project delays. Built to withstand extreme temperatures (-40°C to $+70^{\circ}\text{C}$), sandstorms, humidity, and ...

The features of the LZY-MS4 include solar-powered efficiency, mobility, and precision temperature control, ensuring a cold-chain solution that is more reliable and sustainable than its conventional fuel ...

Black Stump Technologies is a sustainability-focused technology company based in Melbourne, Australia. Their core solar technology is engineered to withstand the harshest Australian remote ...

High-Temperature Resistant Solar Container Manufacturer

We have cleverly combined solar panels, shipping containers, and homes to offer an eco-friendly, convenient, and affordable new living solution.
