Here, we explain how the new Spanish legal framework, Real Decreto-Ley 7/2025, paves the way to accelerate battery energy storage system (BESS) projects by reducing bureaucracy, risks, ...

This initiative aims to position Málaga as a leading city in Spain and Europe for the energy storage industry, further driving regional industrial upgrades. The base is expected to directly create ...

Spain's battery storage program expanded to EUR840M, funding 143 projects totaling 8.9GWh. Learn how this initiative creates opportunities for solar-storage hybrids and boosts grid ...

UE's various energy storage products are made to fit Spain's priorities after power outages and Royal Decree Law 7/2025. From home backup power to stabilizing the big power grid, ...

Government initiatives promoting clean transportation and renewable energy storage are significant catalysts, with Spain aiming for 55% renewable energy by 2030. Urbanization and ...

Spain ranks second worldwide, after the United States, in the development of battery energy storage systems (BESS), according to EY's new Infrastructure Compass 2025 report.

Spain has taken a decisive step in strengthening its energy infrastructure with the launch of a EUR700 million support scheme aimed at expanding large-scale energy storage across the country.

But this paradox is about to end. New market mechanisms, soaring solar buildout, and grid stability challenges are converging to unlock one of Europe's most promising battery markets.

Spain's EUR700 million program aims to boost battery storage capacity by adding 2.5 to 3.5 gigawatts, enhancing energy stability and supporting renewable integration. The initiative supports ...

How to get the new energy battery cabinet in Spain

CdM | Naturgy (NTGY) has begun construction of its first battery storage projects in Spain. These are batteries that will hybridise the Tabernas I and II photovoltaic parks in the province ...
