Exponential Power's Battery Cabinets & Enclosures provide durable, secure solutions for telecommunications and industrial applications. Designed to protect battery systems, these cabinets ...

With advanced BMS intelligence for precise State of Charge (SoC) and State of Health (SoH) tracking, these battery cabinets simplify installation, reduce maintenance, and optimize runtime.

C& D Technologies, a market leader in energy storage, expands its portfolio with the introduction of highly-engineered, factory-assembled battery cabinets that allow C& D to offer integrated battery and ...

"With our Vertiv EnergyCore battery cabinets, we are delivering exactly what our customers and our industry need - compact, high-density energy storage capable of operating safely ...

Powered by nickel-zinc battery technology, the BC Series was designed for data centers that demand a safe, reliable, and sustainable way to manage rapid, repeated power surges.

Powerful, Proven Batteries Uses safe, high-performance lithium-ion modules tested for demanding data center backup and AI compute workloads.

Discover our state-of-the-art lithium ion battery storage cabinets featuring advanced safety systems, intelligent battery management, and modular design for optimal energy storage solutions in industrial ...

Alpine Power Systems engineers and builds customized battery cabinets and enclosures for critical power applications, for utility, telecom, CATV, data center and other applications.

Our new Solition Data Center energy storage system boasts intelligent features, which culminate in safety and reliability, longevity, space savings and easy-to-manage maintenance.

Intelligent OEM Data Center Battery Cabinets

Ensure uninterrupted data center operations with our intelligent energy storage system. Reduce outage risks, extend UPS runtime, cut peak power costs, and optimize grid-connected and off-grid operations.
