NHPC Ltd has announced the commencement of commercial operations for a part capacity of 107.14 MW at its 300 MW Karnisar Solar Power Plant in Bikaner, Rajasthan.

The 300 MW Kamisar Solar Project/Plant has achieved its full capacity. This milestone follows the successful completion of the 5th and Final Phase, contributing an additional capacity of 85.72 MW to the ...

The performance and techno-economic analysis of a 300 MW solar coal hybrid power generation (SCHPG) system were investigated under four different reference days (i.e. 22nd of March, 22nd of June ...

Our study aims to analyze the performance of 300 MW solar-assisted power generation (SAPG) system at different operation conditions in terms of techno-economic and ecological indices. The SAPG ...

Developed by TPREL, this NHPC-owned large-scale solar project is supplying the entire power to PSPCL and will generate approximately 17,230 million units of green electricity over the life period of operation.

Samruk-Energy JSC, in partnership with Energy China, is developing an investment project to construct a solar power plant (SPP) with an installed capacity of 300 MW and an energy storage system of 90 MW / 360 ...

NHPC Ltd, a leading state-owned hydropower company in India, has started commercial operations of a 107.14 MW capacity at its 300 MW solar photovoltaic (PV) project located in Karnisar,...

NHPC has begun commercial operations for 107.14 MW of its 300 MW solar photovoltaic project located in Karnisar, Bikaner district of Rajasthan. The partial commissioning, effective 12 April, 2025, follows ...

New Delhi: NHPC Limited, India's leading hydropower company under the Ministry of Power, has announced the full commissioning of its 300 MW grid-connected solar power project at Karnisar, Bikaner, ...

Kamihara Solar Power Generation 300 MW

NHPC initiates the establishment of a 300 MW solar power plant in Bikaner, Rajasthan, under the Government of India's CPSU Scheme, Phase-II, Tranche-III. With a total investment exceeding Rs 1,732 ...
