-----

An automatic trimming machine is used to automatically remove burrs and exceed materials from PV module edges after lamination. It can adapt to different sizes and shapes of panels and features high trimming ...

Used for edge trimming of laminated PV modules to remove excess encapsulation film, glass burrs, or backsheets overflow, ensuring clean edges and precise dimensions.

We're well-known as one of the leading photovoltaic module auto trimming machine suppliers in China. Please feel free to wholesale discount photovoltaic module auto trimming machine from our factory.

The whole machine is equipped with a safety fence, which has the safety protection function; Automatic control of the equipment, and the operation process does not require personnel intervention;

Need an automatic trimming solution? Discover how the ECOTRIM A can automatically trim excess material from the edges of solar panels post-lamination.

In a photovoltaic (PV) module production line, the AUTOMATIC TRIMMING MACHINE (4 heads, 8 knives) allows laminated modules to enter its interior. Following precise positioning, the equipment autonomously trims ...

In a photovoltaic (PV) module production line, the AUTOMATIC TRIMMING ...

Auto Trimming Machine | Radiant Pv Solar. 1. The design of the arc knife edge improves the trimming effect, the cutting edge is smooth, no burr. 2. 4 unit drivers control 4 cutter heads, move in all directions with 8 cutter. ...

This unit is mainly applied to remove and clean the remains of excessive glue of the modules after lamination; it works self-acting cutting through program setting which can smoothly remove module's redundant remains.

# Photovoltaic panel plastic board trimming machine

Used for edge trimming of laminated PV modules to remove ...

Our main eva backboard cutter, silicon wafer laser cutting and mobile display cutting machine products are solar panel making machines, and used solar panel marking machines.

Description Is an automatic trimming solution for edge cutting of the PV module. The machine loads and centres the panel from the long edge and trims simultaneously the four edges of the panel with 4 automatic blades, ...

An automatic trimming machine is used to automatically remove burrs and ...
