Mouser offers inventory, pricing, & datasheets for Lithium Ion Polymer (LiPo) Battery Packs.

Selecting the right Li polymer battery pack requires a deep understanding of performance characteristics, especially when your application demands high discharge LiPo cells.

Our lithium polymer battery selection includes efficient LiPo battery cells for high-demand applications. Buy lithium ion polymer batteries for reliable power in custom designs and projects at Voltaplex Energy.

(2-Pack) 7.4V 3000mAh Li-Polymer Rechargeable Battery Pack, 22.2Wh 2A Replacement Batteries with 3.5mm DC Jack Charging Cable for Heated Gloves, Heated Socks Battery

Experience smart Li-polymer battery packs with personalized and ruggedized designs. Reliable power for mobile devices with large innovative battery packaging solutions.

5000mAh 7.4V Battery Pack of 2, Batteries for Heated Gloves, Rechargeable Lithium Polymer Battery Replacement, Socks, Hats, Mittens, Vest, Jacket, Hand Muff, Boots, Hat, Knee Braces

A lithium polymer (LiPo) battery pack is a rechargeable power source that uses multiple lithium polymer cells with a polymer electrolyte instead of the liquid electrolyte found in traditional lithium-ion batteries.

Learn what Li Polymer battery packs are and how they work. Discover their advantages for your devices. Explore more and power up your knowledge today!

Our custom lithium polymer battery proposal will engage every aspect of your project from design and sampling, through certification and approvals to volume production.

They may be configured in series, parallel or a mixture of both to deliver the desired voltage, capacity, or power density. Packs are identified by cell size, number of cells, battery structure, chemistry, ...
