Swiss startup Sun-Ways has launched the world's first removable photovoltaic (PV) solar plant installed directly on an active railway track in western Switzerland, with 48 solar panels set to ...

high-speed train High-speed passenger commuter train in motion at the railway platform.

By integrating photovoltaic panels along railway corridors and stations, these systems transform passive infrastructure into powerful energy generators, powering everything from train ...

Switzerland has launched what's billed as the world's first removable solar power plant on an active railway. Installed in the relatively unused space between the rails, the solar panels were ...

Swiss startup Sun-Ways is testing removable solar panels installed on an operational railway line through a pilot project with French railway operator SNCF in Switzerland.

Railway is a full-stack cloud for deploying web apps, servers, databases, and more with automatic scaling, monitoring, and security.

Trainline, your quick & easy way to book train tickets across Europe. Save 61% on UK Rail Live Train Times Save with a Railcard Get the app

Safe travel across Uzbekistan Buy a railway ticket quickly and easily From To Departure date

The February 2026 issue of Railway Age is now available digitally, covering the freight rail Washington outlook and showcasing our 25 Under 40 "Fast Tracker" honorees.

A Swiss startup has achieved a groundbreaking milestone by launching the world's first photovoltaic solar plant on railway tracks, promising to revolutionize renewable energy integration in ...

Railway photovoltaic panels

Solar panels are set to be rolled out "like carpet" on railway tracks in Switzerland in a world-first. Swiss start-up Sun-Ways has been given the green light for a three-year pilot project in...

OpenRailwayMap - An OpenStreetMap-based project for creating a map of the world's railway infrastructure.

IRCTC's Next Generation eTicketing System enables online booking of train tickets for Indian Railways, offering a seamless and user-friendly experience.

Book your train and bus tickets today by choosing from over 30 U.S. train routes and 500 destinations in North America.

The installation comprises 48 photovoltaic panels rated at 380 W each, for a total installed capacity of 18 kWp and an estimated annual output of 16,000 kWh. During the three-year operating ...
