-----

Rawlemon Solar Architecture, founded in 2011 by German architect Andr#233; Broessel, is a Barcelona-based startup developing innovative spherical glass solar energy generators. The company's flagship ...

Rawlemon Solar Architecture -- a Barcelona-based startup -- has plans to change the solar game forever with a spherical glass solar energy generator. All developments in renewable ...

Rawlemon concentrates sunlight and moonlight, improving efficiency by 70% compared to traditional solar panels. It even takes advantage of diffuse light on cloudy days and operates autonomously at ...

With our award winning technology we aim to make solar power a reality for all. Rawlemon is a solar power device maker like no other. From research to prototyping and marketing, ...

One such innovative technology gaining attention is the Rawlemon solar sphere, a spherical lens designed to generate solar energy. Unlike conventional solar panels, Rawlemon ...

Mit unserer einzigartigen Technologie f#252;r transparente, hoch konzentrierende und effiziente Strom- und Lichterzeugung auf Solarenergiebasis, treffen wir den Zeitgeist aller, die Geld sparen, Design lieben ...

Andr#233; Broessel's current invention and design project, Rawlemon, is aimed at producing cleaner energy, a lower carbon footprint and better performance in the use and conversion of renewable solar energy.

Despite their noble cause of harnessing clean, renewable energy from the sun, solar panels tend to be aesthetically uninspiring. Solar start-up Rawlemon aims to change all that with a new, and ...

It is called Rawlemon and can be up to 70% more efficient than panels. In truth, this invention consists of another way to harness the energy of the Sun. Rawlemon is a sphere-shaped ...
