Digicel will partner with Nokia to deploy 5G technology in Samoa. "We are excited to support our partner, Digicel Samoa in getting this important network infrastructure project off the ground.

This milestone is part of Digicel Samoa's WST \$23 million investment in network upgrades across Upolu and Savaii, including 32 new base stations which includes 19 5G and 13 LTE coverage sites last year.

These base stations and towers will offer stronger, speedier, and more efficient mobile coverage to urban communities, helping to bridge the digital divide and support national development.

Digicel Samoa said on Tuesday it has expanded its 5G coverage in Apia with five new sites, for a total of 25 5G sites deployed in the city and its surrounding suburbs. The new sites are ...

La stratégie d'investissement sur la 5G et les futures technologies de réseaux de télécommunications a vocation à soutenir le développement de solutions souveraines sur les réseaux de télécommunications et ...

Digicel Samoa announced the rollout of five new 5G sites across Apia and surrounding suburbs, bringing its total to 25 5G sites, with the new sites strategically placed in key urban,...

Digicel Samoa has recently announced its plans to introduce 5G technology, following conditional approval from the Government of Samoa. This development marks a significant milestone ...

Digicel Samoa has officially kicked off its rollout of 5G services with five 5G sites going live in the Apia CBD. The sites cover the Levili Data Centre, FMFMII, NFP building, Tatte building and Frankie mall. ...

Digicel Samoa announced on Monday that it has been granted conditional approval from the Government of Samoa to launch 5G technology, and is already working with Nokia to upgrade its cell ...
