Why are Tesla specialists assisting Samoa's Electric Power Corporation engineers?

Tesla specialists are on the ground assisting Samoa's electric power corporation engineers to ensure its battery energy storage systems are operating to support Samoa's energy needs during the current power crisis. Image: Electric Power Corporation, Samoa

How has the power crisis impacted Samoa?

The crisis has led to up to 16 hours of daily power interruptions across Upolu requiring extensive power rationing coordinated by the Electric Power Corporation (EPC). Samoan Prime Minister Fiaame Naomi Mata'afa said the economic impact of the crisis is estimated to cost up to 16% of Samoa's GDP.

Are Tesla crews in Samoa working on a routine maintenance visit?

Local media reports say Tesla crews were in Samoa working on a routine maintenance visit but are now helping EPC with the maintenance of all EPC's batteries, which store 6 MW of power sourced from a network of solar farms owned by independent power providers (IPPs) and include the Tanugamanono, Fiaga, Tuanaimato, Salelologa and Faleolo solar farms.

What happened in Samoa?

Problems began on February 23 when the country's main high voltage (HV) underground cable failed between the Fiaga and Fuluasou power stations causing a blackout on the island of Upolu, the second largest in the Samoan islands area, impacting 200,000 people. This event was followed by a second failure on February 25.

About Samoa Home Energy Storage Battery Cabinet With the rapid advancement in the solar energy sector, the demand for efficient energy storage systems has skyrocketed. Our featured grid ...

The Coconut Conundrum: Sun, Surf, and Energy Needs Let's face it--relying on diesel generators in 2025 is like using a typewriter to send emails. Samoa's new lithium-ion battery storage ...

Nordic container energy storage lithium battery system With advanced lithium-ion battery technology and intelligent control system, our eBESS battery container offers a scalable and modular energy ...

Liquid-cooled energy storage lithium iron phosphate battery station cabinet Ranging from 208kWh to

418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire ...

Solar container lithium battery internal energy storage cabinet principle What is the difference between a battery rack and a container?The battery rack consists of the required number of modules, the ...

SunContainer Innovations - As Samoa accelerates its transition to renewable energy, lithium battery storage systems are emerging as game-changers. This article explores how cutting-edge energy ...

As Samoa accelerates its transition to renewable energy, industrial and commercial energy storage systems have become vital for businesses seeking reliable power solutions. This article explores ...

Why a Tiny Pacific Nation Is Making Big Waves in Energy Storage 20,000 residents scattered across tropical islands, relying on diesel generators that sound like grumpy dinosaurs. ...

Tesla specialists are on the ground assisting Samoa's electric power corporation engineers to ensure its battery energy storage systems are operating to support Samoa's energy ...

The Fiaga Power Station - Battery Energy Storage System is a 6,000kW energy storage project located in Samoa. The electro-chemical battery energy storage project uses lithium-ion as its ...
