The decreasing cost of solar technology and energy storage systems is making solar energy more competitive with traditional fossil fuels in the Dominican Republic.

The project aims to provide technical assistance to the MEM to enhance the integration of energy storage systems into renewable energy applications in rural electrifications, particularly solar ...

The solicitation specifically seeks to contract new wind and solar photovoltaic generation bundled with storage systems, with project capacities ranging from 20 MW to 300 MW, to reach the ...

Located in the heart of the Caribbean, this project addresses one of the biggest challenges in renewable energy: intermittency. But how exactly does it work, and why should businesses care? Let's dive in.

Search all the latest and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Vanuatu with our comprehensive online database. [pdf]

The call, by the Unified Council of Distribution Companies (CUED), will be the first in the nation to require projects to include batteries with storage capacity of at least four hours. The aim is ...

Highjoule's wind and solar energy storage cabinets can be integrated with home energy systems to provide all-weather renewable energy. The smart lithium battery energy storage system is ...

By making storage mandatory, it ensures greater grid stability and a more efficient integration of renewable energy. According to preliminary estimates, the new projects could reduce ...

The Superintendency of Electricity (SIE) has approved Resolution SIE-092-2025-LCE, establishing the

Santo domingo smart photovoltaic energy storage cabinet hybrid government procurement

technical and regulatory basis for a tender for up to 600 MW of new solar and wind ...

The project aims to provide technical assistance to the MEM to enhance the integration of energy storage systems into renewable energy applications ...

Veras pointed out that energy storage, once financially unviable, is now becoming a reality due to technological advancements and supportive policies, including resolutions promoting ...
