The 60 MW system will supply power to about 235,000 people in underserved areas, with battery storage providing up to three hours of power during evening peak times.

our energy delivery, Walo Storage marks a major technological breakthrough for the country. The installation facilitates the increasing integration of solar energy while avoiding the emission

The on-time commissioning of Walo Storage demonstrates our ability to support Senegal's energy transition using cutting-edge technology. It is also a key milestone in our ambition to build ...

The project aims to enhance grid reliability, expand clean energy access and support Senegal's sustainable energy transition. Construction on the project began in May 2025, with ...

Senegal has officially inaugurated the "Walo Storage" plant in Bokhol (Saint-Louis Region) on January 22, 2026. This marks a technological milestone as West Africa's first large-scale ...

Ultimately, Walo Storage represents a new era for Senegal's energy landscape, one that is marked by a commitment to sustainability, innovation, and the advancement of renewable energy ...

In this article, we'll explore how smart energy storage solutions are transforming West Africa's renewable energy. Imagine a world where renewable energy flows seamlessly, even when the sun sets or the ...

Senegal has begun commercial operations at a new solar energy facility that combines photovoltaic power with lithium-ion battery storage, the first of its kind in West Africa, as the country ...

West African independent power producer Africa REN has commissioned a 16-MW solar farm with 10 MW/20 MWh of battery storage in Bokhol, northern Senegal, hailing the project as the ...

Described as a first for West Africa, a solar PV installation with battery storage project dedicated to frequency

Senegal Energy Storage New Energy

regulation has been commissioned in Senegal.
