Senegal and sustainable infrastructure developer Africa REN have commissioned the Walo Storage facility in Bokhol, marking the first grid-connected solar-plus-battery installation of its ...

With the launch of Walo Storage, Senegal's energy sector enters a new era of sustainable solar power and reliability.

The plant entered commercial operation in July 2025. According to its developers, it is Senegal's first solar power facility equipped with battery storage dedicated specifically to frequency ...

Senegal has taken another major step toward clean and reliable energy. On Thursday, January 22, the country officially opened the Walo Storage power plant in Bokhol, in the northern ...

West African independent power producer Africa REN has commissioned a 16-MW solar farm with 10 MW/20 MWh of battery storage in Bokhol, northern Senegal, hailing the project as the ...

Axian Energy, Voltalia, and Entech have announced the signing of an EPC (Engineering, Procurement, and Construction) contract for Senegal's NEA Kolda project. It is the largest ...

The Walo Storage facility, commissioned on July 14th, represents West Africa's first solar power plant integrated with battery storage specifically for grid frequency regulation.

Africa REN has commissioned Senegal's first solar-plus-storage facility, the Walo Storage project, in Bokhol, northern Senegal. The portfolio integrates a 16 MW solar power system ...

Senegal has officially inaugurated the "Walo Storage" plant in Bokhol (Saint-Louis Region) on January 22, 2026. This marks a technological milestone as West Africa's first large-scale ...
