From medium-voltage automation to EV charging networks and prefabricated substations, our systems ensure stable, efficient, and future-ready power distribution.

The Clean Energy Latin America (CELA) has recently conducted a comprehensive study that sheds light on the potential growth and lucrative opportunities within Brazil's energy storage market ...

The main components of Hitachi Energy's delivery to Linh#227;o are the substation automation systems that will be installed in three 500 kV new substations being built at Xingu, Jurupari and Oriximina.

Enter the energy storage cabinet --the unsung hero bridging Brazil's solar potential and grid reality. These modular systems have evolved far beyond simple battery boxes.

Brazilian energy storage cabinet manufacturers are riding a wave of unprecedented demand, and here's why: imagine a country where 85% of electricity comes from renewables but still ...

According to PDE 20341, the need for additional supply to meet the power requirement begins in 2027, reaching the order of 5.5 GW in 2028 and reaching more than 36 GW in 2034.

A crucial piece of equipment inside these substations is a regulating device called a synchronous compensator, which is responsible for guaranteeing the stability of the network and mitigating the ...

Brazil launched on Thursday its first large-scale energy storage system with a total capacity of 30 MW, power sector regulator Aneel announced. Who approved the first large-scale ...

The first phase of the Enel Distribui#231;#227;o Goi#225;s project will conclude with the delivery of 59 protection & control cabinets. Substations: SE An#225;polis Universit#225;rio, Campinas e Atl#226;ntico. The first ...

Single-phase power storage cabinet for substations in Brazil

Summary: São Paulo's booming renewable energy sector and industrial demand make it a prime destination for energy storage cabinet exports. This article explores market trends, regulatory ...
