Search all the announced and upcoming solar photovoltaic (PV) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Austria with our comprehensive online database.

In 2024, Austria achieved another year of record photovoltaic (PV) deployment, adding 2.51 GW of new capacity and bringing cumulative installations to 9.4 GW (DC). PV generation reached approximately 7.7 TWh, ...

Discover how EcoSync successfully installed high-efficiency solar panels in Austria, partnering with Elektrotechnik Delic to boost agricultural productivity and support Austria's 100% renewable electricity ...

Developed by Sonnenbau GmbH, the project - which is currently under construction - will have an installed capacity of 112MW and will be located in Burgenland, in the east of Austria near the...

The Austrian state of Styria has commenced the construction of the largest agrivoltaic farm in the region, covering an area of 20 hectares with an investment of 13 million. The photovoltaic project is expected ...

The project, estimated to cost around EUR50 million, is scheduled to begin construction in 2028. In addition to generating renewable energy, the new roof will provide passengers with protection from wind and ...

Austria installed 2.2 GW of new PV capacity in 2024, bringing its cumulative total to 8.3 GW by the end of the year, according to industry group PV Austria.

Austria's solar energy sector is poised for a major transformation with updated government subsidy guidelines taking effect on January 1, 2025.

Listed below are the five largest upcoming Solar PV power plants by capacity in Austria, according to GlobalData's power plants database. GlobalData uses proprietary data and analytics to provide ...

Solar panel projects under construction in Austria

KPV Solar designs and executes major renewable power plant projects for international investors in countries including Austria, Italy, Slovenia, Croatia, Serbia, Czech Republic, and Bulgaria.
