SolarPlus is the complete sales, design and installation solution. Designed by leading solar industry experts to help you win new business, save time and maximise profits. AI powered auto design and ...

This problem can be rectified by reflexive solar control and selective solar control glass which, thanks to its special construction, limits overheating while maintaining a high level of light transmission.

Guardian®; SunGuard®; Solar Plus Glass Series outperforms other conventional solar control monolithic glasses in its category. Its best-in-class solar protection and thermal control let you design various ...

SunGuard®; Solar Plus glass not only offers high solar protection and natural light transmission, but also very low emissivity and the ability to be applied monolithically.

SunGuard &#174; Solar Plus glass not only offers high solar protection and natural light transmission, but also very low emissivity and the ability to be applied monolithically.

Thanks to its low exterior light reflectance, Pilkington Solar-E(TM) Plus can be used for modern glass facades where high reflectance is prohibited or undesirable. Where a safety glass is required, the ...

SolarPlus Observation provides high quality one-way vision that allows observers to monitor subjects in security, discrete or sensitive applications. This product provides a reflective mirror-like surface on ...

It allows up to 70% of visible light to pass through while directing the Infrared and Ultraviolet light into solar cells embedded in the window frames! Our CLEAR Solar Photovoltaic Window Glass can be ...

The full range of Guardian SunGuard Solar Plus glass offers a high colour rendering index achieved by coating on a clear substrate. The light passing through the glass is natural and presents ...
