To build the solar panel enclosure i used 2 parts since the laser cutter can't cut in the 3rd dimation. The outline was made of 3.8mm poplar multiplex while the back cover was made out of 1.5mm poplar ...

Monkey Marc is the co-founder of one of Australia"s largest solar-powered sound systems. It is a fully off-grid, full range sound system, designed to produce the best sound for the least power.

Enter the solar-powered sound system, which promises to become an increasingly regular fixture on the international festival circuit and beyond.

Our flagship Sunny Sound System combines an array of home-made high-efficiency bin speakers, subs, 2000W inverter, deep-cycle solar battery array, and-delivering serious sound without a drop of fossil ...

Solar-powered speakers combine wireless audio convenience with renewable energy. They use solar panels to capture sunlight and turn it into electricity, offering a clean and sustainable energy source ...

A solar-powered outdoor speaker uses built-in solar panels to convert sunlight into electricity, storing energy in an internal battery that powers the speaker for hours without needing to plug in.

Engineered by audiophiles, it features high-efficiency solar panels, a rugged IP66 all-weather rating, and a powerful 50W amp for incredible clarity. No charging cables, complex wiring, or weather anxiety, ...

Solar energy sound systems harness the sun"s power to operate audio devices. These systems reduce reliance on traditional energy sources, lowering environmental impact. Compact and ...

Solar powered speakers are wireless audio devices that harness sunlight to operate. Unlike conventional speakers that rely on electrical outlets or batteries, these speakers feature built-in ...

Ecological and sustainable Sound Systems for all kind of events. Solar speakers that reduce carbon footprint. Toward a cleaner world !
