Spain's Instituto para la Diversificación y Ahorro de la Energía (IDAE) has issued a provisional funding proposal for the country's first call for innovative energy storage projects,...

Spain has chosen the 143 energy storage projects that will receive capex support from an EU-backed scheme, totalling nearly 9GWh of capacity.

The selected projects range from large-scale battery systems to industrial thermal storage and new pumped-hydro plants, reflecting both the technological maturity of the sector and Spain's ambition to ...

Spain's battery storage program expanded to EUR840M, funding 143 projects totaling 8.9GWh. Learn how this initiative creates opportunities for solar-storage hybrids and boosts grid resilience.

Spain's ministry for the ecological transition will award EUR 818.3 million (USD 961.6m) in grants to 126 energy storage projects, after making a decision on the final list of winners selected under the ...

Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It includes pumped hydro, thermal ...

Spain has taken a decisive step in strengthening its energy infrastructure with the launch of a EUR700 million support scheme aimed at expanding large-scale energy storage across the country.

Spain boosts energy storage with new projects, highlighting batteries, solar hybridization and permits after the April blackout.

Altogether, the selected projects will add 2.2 GW of power output and 9.4 GWh of storage capacity. The renewable technologies paired with hybrid storage projects are mainly solar photovoltaic (38 ...

Spain New Energy Storage Project

Spain's ministry for the ecological transition said on Monday it has provisionally awarded EUR 839.7 million (USD 977.4m) in funds to 143 energy storage projects that will add about 2.4 GW of power and ...
