Let's hear what Rafael Stadelmann, CEO of Solarmarkt, has to say about how Chinese solar modules are performing in the region. ? Watch the full story.

Summary: Switzerland's solar photovoltaic (PV) panel market is thriving, driven by sustainability goals and innovative policies. This article explores current trends, key growth drivers, challenges, and how businesses ...

Imagine turning train tracks into clean energy factories. That's exactly what a Swiss startup is doing, by rolling out solar panels between railway tracks. Sun-Ways, based in Switzerland, has just ...

What happens when global conversations meet real-world impact? ? On the sidelines of Davos, one unexpected detour led to a rooftop in a small Swiss town...

According to TA Zurich, the first two photovoltaic systems on the A15 Oberland motorway near Wangen-Brütisellen have now been approved. The two systems are to be completed in the first half of...

A review of two solar photovoltaic development strategies has shown that combining the two approaches could cause over two-thirds of Swiss towns and cities to become energy self-sufficient.

The result: Solar panels could be installed on 55 per cent of the roofs. Even if they are only installed on roofs with a southern exposure, the output could cover over 40 per cent of current annual power ...

Based on the national renewable energy targets, four PV deployment scenarios and two electricity demand scenarios for the residential and service sector have been generated at an hourly ...

Swiss electricity producer Alpiq is selling its rooftop solar assets in Switzerland to PS Panneaux Solaires SA, which is the operating company of the Gefiswiss Energy Transition Fund.

Swiss Panli rooftop solar project

And it's turning heads. ? This #solarproject is a leap towards solving the complexities of rooftop solar installations, particularly on green and flat rooftops.
