The document describes a mono-crystalline backsheet PV module with power output ranging from 535-555W and maximum efficiency of 21.2%. The module has high reliability, power tolerance of 0-5W, ...

With power outputs ranging from 560W to 580W, these solar panels offer significant electricity generation capacity. The high wattage output allows for increased energy production, making them ...

With local presence around the globe, Trina Solar is able to provide exceptional service to each customer in each market and deliver our innovative, reliable products with the backing of Trina as a ...

Based on the 210mm large-size silicon wafer and monocrystalline PERC cell, power output can exceed 550W.

Trina 555W 670W 700W Solar Panel - High Efficiency 22.45% Mono, Find Details and Price about High Efficiency Panel Mono Solar Panel from Trina 555W 670W 700W Solar Panel - High Efficiency ...

555 Watt Trina solar panel with 21.2% efficiency, Mono cell, 30 year warranty. Get quote from nearest installer!

With advanced multi-busbar (MBB) technology, high-density interconnects, and industry-leading durability, this solar panel ensures maximum energy yield even under challenging conditions.

Trina 555w Product Features: Maximum Power (Pmax): 555 Wp Voltage at Maximum Power (Vmpp): 31.8 V Current at Maximum Power (Impp): 17.45 A Open Circuit Voltage (Voc): 38.1 V Short Circuit ...

Designed for commercial PV projects, these modules deliver high customer value through a lower Levelized Cost of Energy (LCOE), reduced Balance of System (BOS) costs, and minimal degradation.
