In just six months -- under shelling, blackouts, and wartime restrictions -- Ukraine completed Eastern Europe's largest battery storage project: 200 megawatts / 400 megawatt-hours of ...

The project includes six battery energy storage systems of varying capacities - from 20 to 50 MW each - connected to the Ukrainian power grid. Collectively, the systems have the capacity ...

IPP DTEK Group and system integrator Fluence have together put a 200MW/400MWh BESS portfolio in Ukraine into commercial operation, a milestone praised by the country's energy ...

This project consists of six battery energy storage systems that can collectively store 400 MWh of electricity, sufficient to supply power to 600,000 homes for two hours.

Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of expected ...

Against the backdrop of energy transition and geopolitical challenges, Ukraine has reached a new energy milestone. DTEK, Ukraine's largest private energy company, in collaboration ...

Despite the many challenges of building energy projects in a war zone, Ukraine's largest battery energy storage project has entered its final delivery phase - ahead of schedule.

DTEK and Fluence launch Ukraine's largest battery energy storage project, capable of powering 600,000 homes and expected to reduce the risk of outages

In 2025 Ukraine deployed around 1.5 GW of new solar capacity driven by strong interest in co-located battery energy storage systems. BasenPower breaks down the key drivers, policy ...

Ukraine distributed energy storage project

DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. The 200 MW/400 MWh installation spans six sites ranging ...
