The Vatican is now completely powered by a farm that sports solar panels to help shade-tolerant crops thrive. This new coupling of solar and agriculture is growing fast.

Italy agreed Thursday to a Vatican plan to turn a 430-hectare field north of Rome, once the source of controversy between the two, into a vast solar farm. The Holy See hopes it will generate...

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough electricity to meet the needs of Vatican City.

To model what this could look like, he announced that solar panels would be installed on a Vatican-owned property outside Rome, and the power generated from that could supply all of ...

The project aims to meet the full energy needs of both the Vatican State and Vatican Radio using solar technology integrated with agricultural activity.

The Vatican will be exempt from paying Italian import taxes for the solar panels, but won't benefit from the usual financial incentives that Italians enjoy when they convert to solar.

Italy and the Holy See agreed to develop the 430-hectare Santa Maria Galeria site north of Rome into a solar farm designed to meet the Vatican's full electricity needs, with any excess ...

Italy has agreed to a Vatican plan to turn a 430-hectare field north of Rome into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into the ...
