Cool-Watt[®] is a solar power plant designed as a 20 feet maritime container, pre-cabled and pre-tested so that it can be deployed in less than 1 hour without civil engineering or specialists.

With a carefully sized solar array, intelligent water systems, and a container shell customized for energy performance, even the most remote sites can offer a comfortable -- and sustainable -- modern life.

This solar powered mini warehouse provides off-grid refrigeration along with freezing capacity. It can be offered with the Solar Watermaker and the Solar IceMaker to provide fresh, clean drinking water and ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The Aldelano Solar ColdBox(TM) is an industrial-grade, portable, solar-powered cold storage mini-warehouse that provides a completely renewable power source, refrigeration and freezing capacity, ...

All-encompassing, fast, and resilient solution for disaster preparedness. A ready-to-install 2-3 kVA power module with 4-6 solar panels and lithium battery storage. Our turnkey water module is a water ...

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this ...

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this comprehensive guide, we delve into the ...

When you're off the grid, staying refreshed can be a challenge, but solar-powered coolers are here to help. These innovative devices not only keep your drinks chilled but also harness ...

Water-cooled solar container outdoor power

Solarators(TM)--sustainable, off-grid refrigeration powered entirely by the sun. Designed for high-performance, temperature-controlled cold storage, Solarators®; operate as efficiently as industrial ...
